

J-Coins Management Platform

Core Objective of the Platform

The software should:

- Automatically calculate J-Coins
- Track company obligations under MoUs
- Validate supporting documents
- Monitor yearly compliance
- Generate dashboards/reports
- Reduce disputes and manual reconciliation
- Create transparency between Tech Park, Institute, and Industry Partner

Software Modules

Company/MoU Management Module	• Company name • Contact person • Email/mobile • Registered address • Agreement start/end date • Minimum annual J-Coin target • Office space allotted • Rental details • Security deposit • Special commitments
